

Organic Chemistry

Alkanes ($-\text{C}-\text{C}-$) – $\text{C}_n\text{H}_{2n+2}$ – saturated hydrocarbons (only $-\text{C}-\text{C}-$ bonds)
 Alkenes ($-\text{C}=\text{C}-$) – C_nH_{2n} – unsaturated hydrocarbons (atleast one $-\text{C}=\text{C}-$ bonds)
 Alcohols ($-\text{OH}$) – $\text{C}_n\text{H}_{2n+1}\text{OH}$
 Carboxylic acids ($-\text{COOH}$) – $\text{C}_n\text{H}_{2n+1}\text{COOH}$
